KEY FEATURES

**BETTER EFFICIENCY**

On-demand power uses less fuel both while running and at rest.

**DUAL FUEL**

Runs on either gasoline or propane.

**CONSISTENT OUTPUT**

3% distortion vs. 17% in competitive models, safe for sensitive devices.

**SOFTER SOUND**

Consistent output means a quieter run without loud rev cycles.

**DIGITAL HOUR METER**

Easily track running time for scheduled maintenance.

**SAFER DESIGN**

Engineered and built to mitigate fire risk.

SPECIFICATIONS

POWER & PERFORMANCE

Watts	5500
Amps	43.3/39.2 (LP)
Volts	119-125
Frequency	59-61 Hz
RPM	Variable 2200-3600

FUEL & OPERATION

Fuel	Gasoline/LP
AC/DC Excitation	Brushless PM
Design	Multi Pole PM
Voltage Regulation	Digital

DIMENSIONS & WEIGHT

L x W x H	29.5" x 19.3" x 13.5"
Weight	130 lbs.
